

# THE "CONTROLLED" COLLAPSE OF WTC-7

THESE REQUIRE THE REALVIDEO PLAYER TO WATCH. You can get a free version at

[Click for real media video of collapse of WTC Building 7 \(small for modems 48Kb\)](#)

[Click for real media video of collapse of WTC Building 7 \(big for broadband 680Kb\)](#)

Take a close look at the manner in which it collapses straight down. For this building to collapse in this fashion, ALL of the load bearing supports on the ground floor would have had to fail at EXACTLY THE SAME TIME. Think this happens by chance? The claim that the collapse was the result of a fire requires the fire be equally distributed throughout the entire floor of the building, providing equal heat for an equal amount of time, so that all the load bearings members would fail at the exact same moment. Shown under "fair use" for non-profit educational purposes.

["Hey, World Trade 7 fell down like because, because, because, um, the mayor stored thousands of gallons of diesel fuel in an office building. Yeah, that's it. Diesel fuel. It's just a coincidence that every single load bearing member on the ground floor failed at the exact same moment in time. Coincidence. CO-IN-SEE-DUNCE! Trust us. We're the government."](#)
