

## Bush Family Values Photo Album

For more than a half century, members of the Bush family have been setting policy and making money for all Americans. Let's look at the family that has had such an impact on the lives of hundreds of millions of people worldwide

It all started with Prescott Bush, George W. Bush's grandfather. In 1918 it is said that he [robbed the grave and stole the skull](#) of the Native American warrior Geronimo as part of an initiation into Yale's Skull and Bones Society. The Skull and Bones society has been very important to the Bush Family. George Bush Sr. and George W. Bush were also members of this [secret society](#).

Prescott Bush got into a little bit of trouble back in the 1940s. While American soldiers were fighting the Nazis in WWII, a few of the companies Prescott managed were [seized under the Trading with the Enemy Act](#) because they were selling fuel to, and laundering money for, the Nazis.

### Here are more pictures of Bush family and friends

This is GW's Uncle Prescott, Jr. During the embargo on China, his company was the only US firm allowed to do business there, [importing communications satellites](#).

This is Jeb Bush's friend Orlando Bosch.

This is Jeb's wife, Colu Bush

Now he's the president of the [USA-China Chamber of Commerce](#), which might be one reason China isn't part of the Axis of Evil. [\(more on China\)](#) He also has ties to organized crime and Manuel Noriega, below.

For many years, the Bureau of Narcotics and Dangerous Drugs (now DEA) wanted to have Manuel Noriega arrested for drug trafficking, but George Bush, Sr. [kept him on the CIA payroll](#). For more than a decade, thousands of tons of cocaine poured onto the streets of America through the Panama Canal while the US government looked the other way. This destroyed the stability of millions of American families, and the repercussions to our society are still being felt today.

He's a terrorist who blew up an airplane killing 76 people, but George Bush, Sr. thought so much of him that he [gave him a Presidential Pardon](#).

She embarrassed herself when she got [smuggled \\$20,000 worth of clothes and jewelry](#) into America.

Here's GW's brother Neil Bush. [American taxpayers \\$1 billion in shady loans](#) he made caused Savings and Loan to go under.

Here's GW when he was in the National Guard, which he joined to get out of serving in Vietnam. He was a pilot in Texas until his flight status was revoked for refusing to take medical exams.

For at least six months, he didn't even show up for duty. [Click here for full details](#)

When George Bush, Sr. was the Vice President, he was involved in secretly [selling weapons to our enemy Iran](#). The money from the weapons sales went to build a secret army that was trying to overthrow the Nicaraguan government. This resulted in years of violence and slaughter for many thousands of Central Americans, and it allowed thousands of tons of drugs to be dumped on America. When he was president, George Bush, Sr. gave a presidential pardon to the people involved in it.

Besides their last names, George W and Jeb Bush have this in common: [all of their children have been in trouble with the law](#). Unlike most Americans who commit crimes ranging from sexual misconduct to felony prescription fraud, the Bush Kids never go to prison.

Now George Bush, Sr. works for [The Carlyle Group](#). They invest in defense companies, medical laboratories, and the telecommunications industry. The Carlyle Group is one of the government's biggest contractors. George Bush, Sr. and The Carlyle Group stand to make billions of dollars from the War on Terror. On September 11, The Carlyle Group was [having a conference at the Ritz Carlton hotel](#) in Washington, DC with members of the Bin Laden family, one of their investors.
